In 1929 John F. Ratto founded the Lone Oak Ranch and Vineyards located in what is now the unique Yorkville Highlands Appellation in Mendocino County. Using the skills they acquired as young men in their native Ligurian region of northern Italy, John's father Giuseppe Ratto and his father-in-law, Lorenzo Bertucci, planted the first vines on our hillsides in the spring of that same year. We have been producing quality fruit distinguished by its vibrant character for four generations.

Our family has lovingly worked our beautiful hillside vineyards for over seventy-seven years. We have now extended our efforts into the careful crafting of excellent wines. Our award-winning wines are aged in American oak barrels for at least one and a half years. They are then bottle aged for another year. Our goal is to produce premium wines at reasonable prices. Our family believes you will enjoy the fruits of our labor.

PLEASE NOTE:

Our tasting room is scheduled to open in the spring of 2007.
