Pet Friendly

Ravenridge is located in the scenic highlands eight miles west of Cloverdale. City life fades away as you enter a private gate, follow a gravel road through vineyard and forest, and arrive. Nestled beneath a spreading live oak, our two cottages have dramatic hillside vistas that beckon westward to the Mendocino coast. The nearby forest provides habitat for an assortment of birds and other wildlife, including our resident Ravens. Your private getaway offers both a relaxing retreat and a convenient base for exploring the surrounding countryside and wine regions of Yorkville Highlands, Anderson Valley, Hopland/Ukiah and Alexander Valley.

Hillview Cottage, the property's original one-bedroom house, has been renovated with attractive colors and appointments. The cottage accommodates two couples or a family of four. The bedroom has a queen size bed, and the living room sofa opens to a comfortable full size bed.

The kitchen is fully outfitted, and the private patio with grill offers a splendid western view.

An open space design, high ceiling, and skylights add to Woodhaven Cottage's dramatic ambience. North-facing windows provide suffused light and a sweeping forest view.

Asian touches and updated industrial finishes enhance this contemporary retreat. An ideal nest for a couple, the studio's comfortable sofa offers additional sleeping for another adult or child. The compact galley kitchen is supplemented by an outdoor grill on the west-facing deck.

Wood-burning stoves in both units provides cozy warmth for winter chill, with plenty of seasoned firewood available.

Satellite TV and DVD players offer media options. Wi-Fi is also available.

With an exceptional rustic setting in the heart of Yorkville Highlands and comfortable amenities, the cottages at Ravenridge await you.
