Kevin Barr

Summer Wind Vineyards is a beautiful example of a ranch where we have obtained the highest quality wine grape production, using innovative tools and experienced industry professionals to preserve the natural surroundings of the vineyard. In addition to our own employees, many of whom have decades of experience, we retain the services of several of the wine industry's leading experts in the fields of viticulture and enology. At SWV, expert knowledge has been sought for the design, development, management and harvesting of this premium vineyard site; the results show.

We are proud to have achieved the goal of growing quality fruit while preserving the natural beauty of the plant and wildlife in the surrounding environment of the Yorkville Highlands.

Redwood Empire Vineyard Management is a full service vineyard management and vineyard development company.

We have 80 full time employees, and as many as 200 during harvest, so that we are well-equipped to respond to a variety and multitude of needs. We pride ourselves in being responsible caretakers of the vineyard and the environment by employing the highest quality sustainable practices possible for each vineyard site. We are also committed to staying at the very front of the learning curve in the craft of growing grapes, to plant and grow the best quality grapes, in the most efficient, cost effective and responsible manner for our clients, as well as on our own ranches.
